Connected journeys across the customer lifecycle

Care & support: fraud alerts

Situation and context

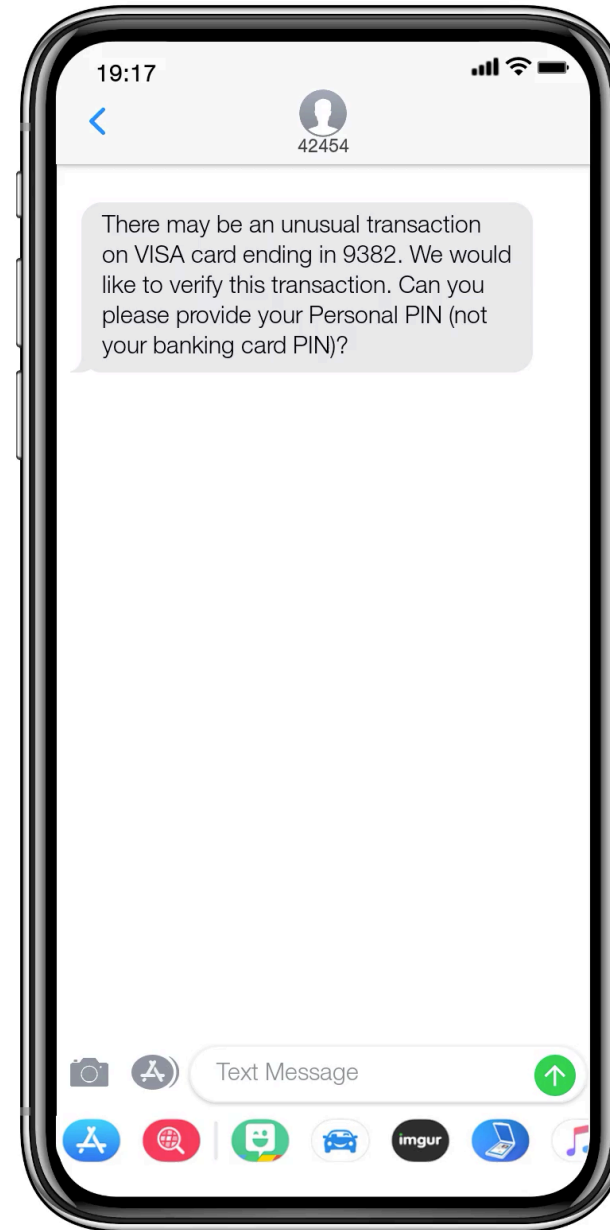

Protecting customers against fraudulent transactions can hurt the relationship when legitimate transactions are blocked.

Solution

Use WebexConnect to trigger proactive fraud alerts that the customer can respond to in real time to verify or dispute the legitimacy of a transaction.

Benefits

- Give your customers control of verifying suspicious transactions
- Reduce fraud investigations workload
- Improve trust and confidence with your customer

Care & support: self - service customer support

Situation and context

In the wake of COVID-19, branch closures led to call volumes spiking by one-third and wait times more than tripling between December 2019 and April 2020.

Solution

Use WebexConnect to meet customers where they are in the communication channel of their choice and with a lower budget than building these solutions internally.

Benefits

- Call deflection from call centre
- Improve operating efficiency
- Provide customers self-service capabilities
- New opportunities to drive revenue and account growth

Discover: meet customers where they are with Google's Business Messages

Situation and context

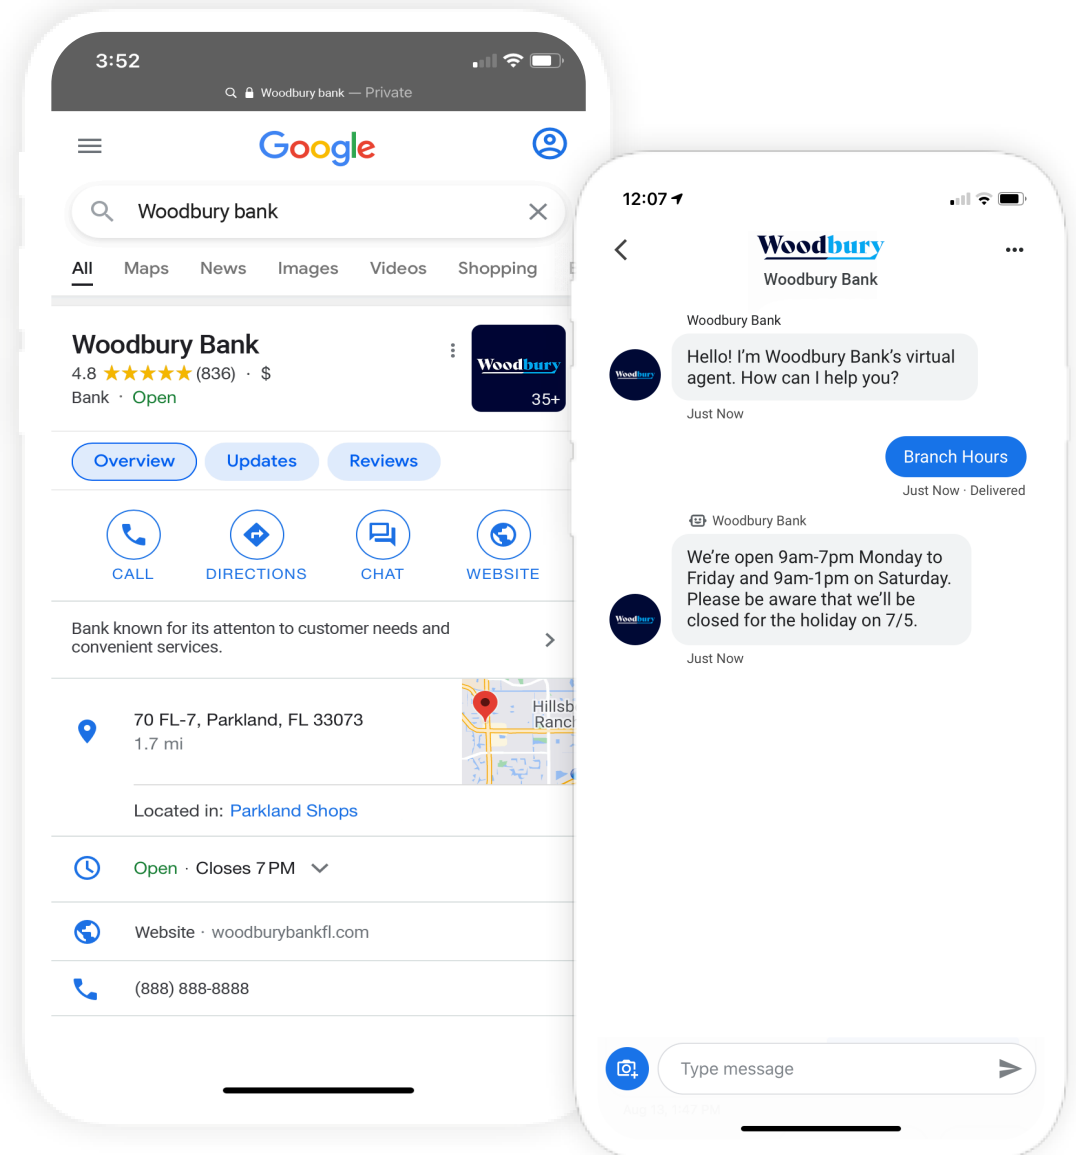

Billions of phone calls to businesses originate from Google searches every year leading to a strain on call center and branch resources.

Solution

Convert more customers searching for your bank by enabling Google's Business Messages making it easier for customers to get information they need most.

Benefits

- Deflect calls and reduce costs
- Improve customer experience
- Increase new acquisition and conversion

Proactive Call Deflection

Let's try it

Apple iMessage
iPhone only

WhatsApp

Google RCS
Android only
